TECH SKILLS :

React Js / Redux / JavaScript / MUI / Bootstrap / Tailwind CSS / HTML5 / CSS3

PROFESSIONAL EXPERIENCE

Front-end Developer Intern*

Eskill Web (Internship, [Feb,2024] , 4 months)

- Assisted in designing and developing responsive web applications using HTML, CSS, and JavaScript

- Implemented UI/UX principles to create visually appealing and user-friendly interfaces

- Collaborated with the development team to resolve bugs and improve code quality

- Utilized Git for version control and managed code repositories

- Contributed to the development of [specific projects or features] using [specific technologies or frameworks]

- Gained experience with [specific skills or tools] and applied them to real-world projects

- Worked closely with the design team to ensure seamless integration of design elements into the front-end code

- Participated in code reviews and learned from feedback to improve coding skills

This experience highlights:

- Hands-on experience with front-end development

- Collaboration and teamwork skills

- Familiarity with version control and code management

- Ability to apply UI/UX principles and design elements

- Exposure to real-world projects and code reviews

Feel free to customize it as per your actual experience and skills!

PROJECT

Codeitup App   **HTML5 , CSS3**

Designed and developed a user-friendly coding app using HTML and CSS, featuring a clean interface for writing and testing code snippets.

Weather App   **HTML , CSS, and JavaScript**

Real-time weather data from OpenWeatherMap API

Developed a simple weather app using HTML, CSS, and JavaScript that displays the current temperature, and location of a user-inputted location. Utilized the OpenWeatherMap API to fetch real-time weather data.

Feedback app   **React.js**

 Developed a responsive and interactive feedback collection app using React, enabling users to provide ratings and comments on various services.

- User-friendly feedback submission form

- Rating system with animated feedback indicators

User app   **React .js , React Context API**

Built a scalable and maintainable user management app using React, leveraging Context API for state management and prop drilling elimination.

- User authentication and authorization

- User profile management

Crypto app   **React.js , Redux**

Built a comprehensive cryptocurrency tracking app using React and Redux, featuring real-time market data, customizable watchlists, and user authentication.

- Real-time cryptocurrency market data

- Customizable watchlists with price alerts

- User authentication and profile management

EDUCATION

Bherulal Patidar Government PG College   **2017-2021**

Bachelor of Science

J.N.S Govt. OLD College, Shujalpur   **2022-2024**

Master of Science in Physics
